

Switch now and benefit from the advantages

The Mara® Jet DI-2TV is the dedicated solution to get the best prints for all graphic and signage applications from your VG2, or your TR2 upgraded TrueVIS printer. Benefits like the brilliant and durable prints come across with a very good machine compatibility and maintenance friendliness.

Mara® Jet DI-2TV was especially developed for Roland® printers that can be operated in the TrueVIS™ INK TR2 configuration.

Mara® Jet DI-2TV arrives ready to use in a machine compatible ink pouch, including chip and it does not require any hardware or software changes.

The DI-2TV substrate range includes

- different qualities of PVC self-adhesive foils (monomeric, polymeric and cast PVC films)
- other PVC coated materials and tarpaulins
- coated textiles, suitable papers
