

Safety and Versatility

Thanks to their properties, most ink series are suitable either for a large number of substrates or for special applications.

Tampa[®] Tex TPX is a real all-rounder: it is the first choice for printing all kinds of substrates, but also for sensitive applications such as baby articles.

Wide substrate range

Tampa[®] Tex TPX convinces with very good adhesion, high opacity, and easy processing on a vast number of materials such as

- Tritan
- PP, PE, TPE
- All kinds of textiles
- PET, PETG/A
- Metals
- Glass
- Wood
- Rubber-like and coated materials
- PA, PC, PVC, PMMA
- PS, ABS, SAN
- and many more

Sensitive applications

One of the main applications is printing on all kinds of baby articles made of polypropylene or Tritan such as drinking bottles, soothers, and teething rings.

Tampa[®] Tex TPX scores with carefully selected raw materials and fulfills the very stringent manufacturer guidelines.

Simply comfortable textiles

As a cost-effective alternative to heat transfer or annoying sew-in labels, Tampa[®] Tex TPX keeps its promises: Removing these disturbing labels often ends with damaged clothing. Direct printing of size information, washing instructions, or logos eliminates this problem and provides full wearing comfort.

For further information regarding textile, non-textile, and sensitive applications of Tampa[®] Tex TPX please refer to www.marabu-inks.com

Your Benefits:

Highest consumer safety thanks to carefully selected raw materials

- Certified according to ECO-PASSPORT by OEKO-TEX[®]
- Regularly tested according to AFIRM specifications
- All used ingredients are listed in the Swiss "Verordnung des EDI über Bedarfsgegenstände" (SR 817.023.21)
- Corresponding to the "Nestlé Guidance Note on Packaging Inks"
- Pigments corresponding to "Resolution AP (89)1"
- No use of Bisphenol A (BPA)
- Produced in accordance with the requirements for indirect food contact of the "EuPIA-GMP"
- Compliance with standard EN 71/3 ("Toys Directive")

Less expensive than heat transfer labels

- Significant savings potential

High opacity

- Applicable on coloured materials

Flexible and resistant against washing and ironing

- Keeps up the comfort and meets the highest quality standards

Easy processing

- For process safety and efficiency
